

Sample Event Agenda

This is a sample Maker Party event agenda. Feel free to alter it as needed.

YOUTH HACKJAM AGENDA

Thank you for being a mentor!
A few notes about the workshop

Today is about youth becoming makers. It may be hard to keep your hands off the keyboard when they have a question, but it will help them learn. If they're really struggling, it's totally ok to do a bit for them at that point.

Please keep an eye out for youth who need help but are too shy to ask for it.

We will be doing a demo (show-and-tell) at the end of the day. If you see something that's awesome - or even a youth who's worked super hard - suggest to them that they show it at the demo.

Please say hi on social media! And share pictures of the day!
